PROFESSIONAL SUMMARY

Frontend Developer with 9 months of freelance experience building responsive, user-friendly web applications with React.js, TypeScript, Redux Toolkit, Context API, and REST APIs. Skilled in translating Figma designs into reusable UI components, implementing role-based authentication and CRUD functionality, and delivering clean, maintainable code. Comfortable working in Agile/Kanban workflows with Git and GitHub, and committed to continuous learning.

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript (ES6+), TypeScript, Responsive Web Design, Cross-Browser Compatibility

Frameworks & Libraries: React.js, React Router DOM, React Hook Form, Context API, Redux Toolkit (Async Thunk), Chart.js

UI & Styling: Bootstrap 5, React-Bootstrap, Tailwind CSS, Material UI (MUI)

API Integration & Tools: RESTful APIs, Axios, Swagger, Postman

Design & Implementation: Figma (UI inspection and implementation), translating requirements into reusable UI components

Version Control & Collaboration: Git, GitHub, Agile methodologies, Kanban

PROFESSIONAL EXPERIENCE

Freelance Frontend Developer (React.js) | Self-Employed, Remote **Jan 2026 – Sep 2026**

- Developed responsive, cross-browser web interfaces with React.js, TypeScript, and modern JavaScript (ES6+) according to client requirements and Figma designs.
- Translated Figma designs into reusable, maintainable UI components using Material UI, Bootstrap 5, React-Bootstrap, and Tailwind CSS.
- Integrated RESTful APIs with Axios and validated endpoints with Postman and Swagger to deliver authentication, role-based access, and CRUD workflows.
- Managed application state with Redux Toolkit (Async Thunk) and Context API; built forms with React Hook Form and data dashboards with Chart.js.
- Used Git and GitHub for version control, tracked tasks in a Kanban workflow, deployed applications to Vercel, and communicated directly with clients to clarify requirements and apply feedback.

PROJECTS

Quiz Management System | Live Demo | Source Code

- Developed a role-based quiz platform (Instructor and Student) with authentication, quiz creation, group management, question bank CRUD operations, exam access codes, instant results, and performance analytics.

Food Management System (React) | Live Demo | Source Code

- Built a React application with two roles (Admin/User), authentication, and CRUD operations for recipes, users, and categories, plus favorites management (add/remove) for users.
- Implemented a responsive UI based on Figma designs.

Project Management System (React) | Live Demo | Source Code

- Developed a task management application with two roles (Manager/Employee), authentication, dashboards, CRUD operations, drag-and-drop tasks, and light/dark mode.
- Integrated REST APIs to deliver full application functionality.

Online Bookstore (React, TypeScript) | Live Demo | Source Code

- Built an e-commerce frontend with authentication, cart, and checkout flow, using Redux Toolkit for state management.
- Created a responsive UI with Material UI and integrated APIs for seamless functionality.

TRAINING & PROFESSIONAL DEVELOPMENT

Job Simulation Bootcamp (JSB) – React **Dec 2025 – Apr 2026**

- Completed a real-world React simulation program with individual and team projects, working with Figma designs, REST APIs, and state management in an Agile environment.

Advanced React Course **Jul 2025 – Sep 2025**

- Advanced training in React Hooks, Context API, and component architecture, focused on scalable and maintainable frontend applications.

EDUCATION

Bachelor of Arts in Geography – Ain Shams University, Cairo, Egypt

LANGUAGES

Arabic – Native | **English** – Good
