SUMMARY

Junior Frontend Developer with hands-on experience in React, TypeScript, Context API, and REST APIs. Skilled in building responsive and user-friendly web applications, translating Figma designs into functional UI components, and implementing CRUD functionality. Passionate about continuous learning, clean code, and collaborative Agile workflows.

TRAINING & PROFESSIONAL DEVELOPMENT

Upskilling Job Simulation Bootcamp (JSB) ***Dec 2025 – Apr 2026***

- Participating in a real-world React simulation program, completing individual and team projects.
- Working with Figma designs, REST APIs, and state management with Agile collaboration tools.

Upskilling Advanced React Course ***Jul 2025 - Sep 2025***

- Advanced training in React Hooks, Context API, and component architecture.
- Focused on building scalable and maintainable frontend applications.

PROJECTS

Quiz Management System:[Live - Code]

- Role-based quiz platform with Instructor and Student dashboards, authentication, quiz creation, group management, question bank CRUD operations, exam access codes, instant results, and performance analytics.

Food Management System: [Live - Code]

- React application with 2 roles (Admin/ User), authentication and CRUD operations for recipes, users ,categories and favorite management (add/ remove) for users
- Built with responsive UI based on Figma designs.

Project Management System (React): [Live - Code]

- Task management application featuring 2 roles (Manager/ Employee), authentication, dashboards , CRUD operations, drag and drop tasks and light/dark mode.
- Built using React and REST APIs for full functionality.

Online Bookstore (React & TypeScript): [Live - Code]

- E-commerce frontend with authentication, cart, and checkout flow using Redux Toolkit for state management.
- Built responsive UI using Material UI and integrated APIs for seamless functionality.

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript (ES6+), TypeScript, Responsive Web Design, Cross-Browser Compatibility.
Frameworks & Libraries: React.js, React Router DOM, React Hook Form, Context API, Redux Toolkit (Async Thunk), Chart.js.
UI & Styling: Bootstrap 5, React-Bootstrap, Tailwind CSS, Material UI (MUI).
API Integration & Tools: RESTful APIs, Axios, Swagger, Postman.
Design & Implementation: Figma (UI inspection and implementation) Translating business requirements into reusable UI components.
Version Control & Collaboration: Git, GitHub, Agile methodologies, kanban.

EDUCATION

Bachelor's Degree in Arts (Geography) – Ain Shams University

LANGUAGES

- Arabic: Native
- English: Good
